OFFICIAL PAPER OF SOCORRO COUNTY.

SATURDAY, JULY 20, 1907.

"PROGRESS AND DECENCY."

"Progress and decency" was the slogan of the late defunct reform administration. What virtue entitled that administration to so high sounding a battle Cry?

"Progress and decency!" Let us see.

H. J. Hagerman was the head of the administration referred to. One of Governor Hagerman's first official acts was to dismiss one of the leading officials of the territory from office without assigned cause and then to institute a so-called investigation of his accounts, at which investigation the dismissed official was absolutely refused a hearing. The manner of conducting the investigation and making its results known made manifest a high-handed and reckless determination to ruin the the court house in good repair dismissed official in his personal, political, and business relations body who cares to visit the court for purely selfish purposes. And house and examine the improvethis was the first step in the direction of "progress and decency."

The thirty-seventh legislative assembly convened and Governor Hagerman found himself sadly in need of legislative support. He was openly accused of trading appointments to public office for such support as he could secure by that means, and the accusation has never been denied. "Progress and decency!"

Charges were filed against Governor Hagerman. He was called into the presence of President Roosevelt, who took the boy governor by the metaphorical ear, accused him of being an unsatisfactory governor, of having consummated a crooked deal in ocratic influence, and of having bartered public offices for legislative support, and then cast meant by "progress and decency."

decency" on part of the Hagerman administration continues to accumulate. It has been pretty well established that the late governor was more than willing to barter with the democrats for the overthrow of those unfriendly to him in his own party. He sent large numbers of private telegrams at public expense. When he left the executive office, he left in such a hurry that he "inadvertently mixed" Expert McMahon's report with his private papers and did not discover this fact until while he was on a fishing trip up on the headwaters of the Pecos river. He spent the executive's contingent expense fund, heaven and Hagerman only know how, and both refuse to tell.

But Captain Trelford, the prison expert imported from Kansas, surely he knew what was meant by "progress and decency." Yes; he was dismissed from the superintendency of the territorial prison on a charge of inhuman and brutal treatment of convicts. He spent \$28,000 of the annual maintenance fund in seven months, leaving only \$7,000 for the remaining five months and making a large deficit probable. He said there was tically useless as a source of color.

revenue. He-but he has gone back to Kansas.

And those beef contracts!

O "progress and decency," what hypocrisy has been practiced, what rascality has been committed, in thy name!

Is there any reason why the adherents of the late Hagerman maladministration who are still occupying offices of a political character should not be dismissed and their places filled by friends of the republican territorial organization? It is a mighty good rule of practical politics to reward your friends and let your enemies look out for themselves. Hagerman and his followers adopted that rule with alacrity and were so much gratified with first results that they evidently determined to make the rule sweeping in its application and would have done so if their inglorious career had not been cut short. There is no good reason why a Hagerman follower should continue in a lucrative office in New Mexico. Each one of them should be replaced by a competent friend of the republican organization. In case of the purely honorary positions it is well to let fitness be the sole consideration, as has been done heretofore. Otherwise, turn the rascals out.

THE wisdom of the action of the board of county commissioners in borrowing money to put can not be questioned. Anyments that have been made and those still in progress will have to acknowledge that the results speak unanswerably in their own

IT cannot be denied that New Mexico is blessed with her full share of the prevailing prosperity. In fact, it is becoming quite evident that in this regard the Sunshine Territory is especially favored by Providence and the republican party.

Socorro county is all right. Her chronic kickers are her only people out of business.

Diseases like cramp him into outer darkness. The colic and cholera morbus require president evidently understood prompt treatment, and have in what the Hagerman adherents many instances proven fatal before medicine could be procured or a physician summoned. All the Difference.

Attorney General Hadley of Missouri condemned in an address at Topeka before the State Bar association, certain trust methods. In discussing the matter with her, a minister said, soothingly: 'The thieves will be punished, maybe. They're committed for trial.' 'Yes,' said the widow, 'they're committed for trial, it is true: and my child and I are condemned to hard labor for life." "

Pontiac, Great Organizer.

Pontiac exemplified at once the best and the worst traits of the American Indian. As an organizer among a people with whom organization is almost impossible, and as a master of the treacherous statecraft of his race, he probably surpassed them all. As soon as his death was known, the French governor at Louis sent for his body and buried it with full martial honors near the fort. "For a mausoleum," Parkman finely says, "a great city has arisen above the he hated with such burning rancor, trampled with unceasing

It is for sale by Socorro Drug & Supply Co.

Just a Hint-That's All.

The manager in a shipyard is reported to have assembled his men together in the time office and told them to vote in a municipal election as they pleased. "In fact, I shan't tell you how I am going to vote," he said, "but emplified in the anecdote of the after it is all over I shall have a Syracuse widow. She lost every barrel of beer brought into the yard." ("Hear, hear!" shoutedpeculations of some dishonest the men.) "But I shan't tap it unless Mr. Blank gets in."

An Illiterate Peeress.

The late Lord Craulley married the daughter of an island fisherman. His widow, a beautiful but totally illiterate woman, although she had become by her marriage an English peeress of the realm, survived her husband for nearly twenty years without ever leaving the island of Capri, retaining her peasant dress habits and living happily and contented among her kinsfolk.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by all druggists.

England's Debt to France.

One of the chief debts to France is that she nourishes our ideas, trasforms them, makes them her own, just as she transplanted and transmitted the flower of the Rennaissance in an early day. With all our national vanity we never dispute the parentage. It is only territory and diplomatic prestige and commerce about which we quarrel with our "sweet enemy."
